

## INTISARI

Penelitian ini bertujuan untuk mengetahui pengaruh hutang dan kinerja keuangan terhadap profitabilitas yang diukur dengan *return on equity* (ROE) pada PT Jasa Marga Tbk di Bursa Efek Indonesia . penelitian ini tidak menggunakan sampel karena sifat dari penelitian ini merupakan studi kasus, sehingga data yang digunakan hanya dari satu perusahaan yaitu PT Jasa Marga Tbk berupa laporan keuangan triwulan 2011-2015 yang dipublikasikan oleh Bursa Efek Indonesia ([www.idx.co.id](http://www.idx.co.id)), sedangkan teknik analisis menggunakan regresi linier berganda, dimana variable bebas terdiri dari hutang jangka pendek, hutang jangka panjang dan kinerja keuangan serta profitabilitas yang diukur dengan *return on equity* sebagai variable terikat.

Berdasarkan hasil uji F menunjukkan hutang jangka pendek, hutang jangka panjang dan kinerja keuangan berpengaruh secara bersama-sama terhadap profitabilitas atau *return on equity* (ROE). Berdasarkan hasil uji t menunjukkan bahwa hutang jangka panjang berpengaruh secara parsial terhadap profitabilitas, hutang jangka pendek dan kinerja keuangan tidak berpengaruh secara parsial terhadap profitabilitas.

**Kata kunci :** hutang jangka pendek, hutang jangka panjang, kinerja keuangan dan profitabilitas.

## ABSTRACT

This research is aimed to find out account receivables and financial performance to the profitability which is measured by using return on equity (ROE) at PT Jasa Marga Tbk which is listed in Indonesia Stock Exchange, this research does not use samples because this research is a case study, therefore the data uses only one company i.e. PT Jasa Marga Tbk in the form of quarterly financial statement in 2011-2015 periods which have been published by Indonesia Stock Exchange ([www.idx.co.id](http://www.idx.co.id)), meanwhile the analysis technique has been carried out by using multiple linear regressions, the independent variable consist of short term debt, long term debt, and financial performance and profitability which are measured by using return on equity as the dependent variable.

Based on the result of F test, it has been found that simultaneously short term debt, long term debt, and financial performance give influence to the profitability or return on equity (ROE). Based on the t test it has been found that long term debt give influence to the profitability or return on equity (ROE), short term debt and financial performance don't give influence to the profitability or return on equity (ROE).

**Keywords:** Short term debt, long term debt, financial performance, and profitability.
